OFFICIAL CARDS WAGHORN'S GUIDE, 50

Qu'Appelle : Progress

PUBLISHED EVERY THURSDAY
At the Printing Office, Qu'Appelle Station,
Assa, N.W.T., Canada.

Subscription Price \$1 per annum in ad-
vance; \$1.50 if not so paid.

S. T. SCOTT, Editor and Proprietor.

ADVERTISING RATES.

Business cards as per arrangement ac-
cording to space.

Transient Ads, such as Legal Notices,
By-Laws, Tenders, Notice of Meetings, etc.,
10 cents per line first insertion, and 5 cents
each subsequent insertion, solid nonpareil
measure.

Reading notices in local columns 10 cents
per line each insertion.

Advertisements of Wills, To Let, Found,
Lost, etc., 50c for first insertion, 25c for
each subsequent insertion. This class of
ads. must be accompanied by cash to insure
publication.

Church Notices and Society Entertain-
ments from which a revenue is to be derived
will be charged for at the rate of 10 cents
per line.

Rates for Commercial, Contract and Per-
manent advertisements will be furnished on
application.

The publisher reserves the right to refuse
to insert advertisements of a questionable or
objectionable character.

A liberal commission allowed to parties
willing to act as agents for us. Write for
terms.

S. T. SCOTT,
Editor and Proprietor

How the Dipper saved the Farm.

Father was sick and the mortgage on the
farm was coming due, I saw in the Christian
Advocate where Miss A. M. Fritz of Station
A, St. Louis, Mo., would send a sample
combination dipper for 18 two-cent stamps,
and I ordered one. I saw the dipper could
be used as a fruit jar filler, a pump dipper,
a fine strainer, a funnel, a strainer funnel,
a milk cream separator and a pump measure.

These eight different uses makes the dipper
such a necessary article that I went to work
with it and it sells at very near every house,
and in four months I paid off the mortgage.
I think I can do as much as \$200 a month.
If you need work you can do well by giving
this a trial. Miss A. M. Fritz, Station A,
St. Louis, Mo., will send you a sample for
18 two-cent stamps—write at once.

JOHN G. N.

Look at the date on the address of
your paper. It shows when your subscrip-
tion expired or expires. It in arrears
please remit, even a part of what you owe,
as an evidence of good faith. A change in
the date on label will indicate that the
money has reached us. If change is not
made within the first two weeks following
the date of your remittance please notify us.

Subscribers in remitting by post office
order please make payable at "Qu'Appelle
Station," not "Qu'Appelle," as that is a
different post office. Old Country sub-
scribers please bear in mind that \$1.50 (six
shillings) is our subscription rate per
year to the Old Country—in advance.

THURSDAY, OCT. 29, 1896.

The Wheat Situation.

On Monday the elevator resumed
operations, and in spite of the big
drop in prices last week farmers
are rushing in their grain at the
rate of 3,000 and 4,000 bushels a
day. According to despatches in
the daily papers, wheat is now at
its bottom price with every chance
to go higher, but the position is so
puzzling that farmers seem anxious
to secure a fair price while it is
offering. The following from the
Daily Nor'Wester, however, is re-
assuring:

"Last week's remarkable advance in the
price of wheat followed by a sudden col-
lapse and a subsequent upward reaction
shook the faith of a great many people in
the genuineness of the movement, which
was attributed to the manipulation of the
dealers—a wheat gambler's trick which had
no solid foundation. The latest develop-
ments, however, goes far to prove that these
fears of a purely speculative rise in prices
are in a great measure groundless, and that
the advance, though possibly accelerated
and encouraged by the bulls, was mainly
brought about by actual necessities. The
total or partial failure, or the shortage of
crops in nearly every wheat producing
country in the world—Manitoba itself not
excepted—must create an extraordinary de-
mand which will regulate the price, quite
apart from the efforts of operators to advance
or lower it to their own advantage. The
situation must offer great temptations to
the speculative fraternity and rapid specu-
lations and wild excitement in the wheat pits
may be confidently looked for during the
next few months, but what is essentially im-
portant to the producer is the fact that nothing
in the way of rushing the market can at
this stage prevent his securing a fair price
for his wheat."

The world's shippings to-day consider-
ably less than it has been at any time since
1891, and with India, Russia and France
importing wheat there can be no doubt that
those who can afford to hold for a time will
realize big prices. Manitoba's position with
regard to her wheat is unique. The crop
this year is far below the average in quantity
and so rapidly is it being bought up a price
that a year ago would have been regarded as
quite beyond the possibilities, that before
long exporters must call a halt or we will
find ourselves short for home consumption.
Very little Manitoba wheat in its original
form will find its way to the old country
markets this year, as it will nearly all be
required by the Canadian millers to supply
their rapidly increasing trade, and such
being the case Manitoba farmers need not
worry much over the loss of a fair price as
Liverpool, New York or Chicago, for they
will be assured of good prices right at their
home shipping points. The Manitoba crop
of 1896 will produce more cash to her farm-
ers than the more bounteous ones of former
years and compensate them for the shortage
which they were ready to bawl as a dire
misfortune a few weeks ago."

Fatal Shooting.

GRANBY, Oct. 21.—The chief topic of
conversation in town on Saturday was the
fatal shooting accident at Mr. A. W. Em-
bury's about five miles north of the town.
Mr. Embury's son Arthur was cleaning his
gun, a muzzle-loader, and after he was
through, put a cap on each barrel and ex-
ploded them in order to clean out the
muzzle. When he exploded the first one he
was standing at the back of the horse facing
the stable, and just as he was about to
snap off the second one he noticed the horse
coming out of the stable, so he swung
the gun around towards a little bluff almost
at right angles with the way it was pointing
and without looking pulled the trigger.
That barrel had been loaded since he used
the gun last, by his brother, without his
knowledge, and he was started to hear the
report of the gun, but more so by a cry
from the direction in which it had been
fired. He dropped the gun and ran to-
wards the bluff and saw his adopted sister
Maud, fall forward, the blood spurting from
her mouth and nostrils. He carried her
into the house, and although she opened
her eyes once she never spoke or seemed to
recognize any one, and the nurse have been
dead when he reached the house. One shot
had struck her in the forehead, penetrating
about three inches, another in her cheek and
a few in her hands and body. The little
girl was a daughter of Jas. Gowdie, of Gren-
fell, and was adopted by Mr. Embury about
a year and a half ago. She was about ten
years of age, of a bright disposition and was
a general favorite with the family and neigh-
bors.

Chicken Chirpings.

Miss Dora Penny paid a visit last week to
her parents at Abernethy.

Miss May Garrett, of Grenfell, spent the
20th and 21st inst. with friends in this
neighborhood.

We are glad to say that the snow is hold-
ing off well, as thus far none worth men-
tioning has fallen. This is a good thing
for those who have to make provision for
their cattle and other live stock.

Miss I. Burton, our enterprising
young girl, attended the teachers' convention
which was held at Wolseley on last Thurs-
day and Friday.

Austin Turner, one of our enterprising
young gentlemen, intends purchasing a quar-
ter section of land in this locality. We
sincerely hope that he will make farming a
success.

Mr. John Robins, as a certain un-
derstander of your world say, is leaving
now. He has a son and son-in-law. We extend
our congratulations through the medium
of the Progress.

A true maxim is, "It's an ill wind that
blows nobody any good." It is reported
that one of our farmers who has been out
by the recent prairie fire has had some hay
given him since as a compensation than he
had originally.

A Wife Equal to a Gold Mine.

Will some of your readers give me a good
receipt for making a cold stretch? I am sell-
ing self-heating fire-tires and iron stilt-
ing every house and have to use some search
every place and want to know how to make
a good cold stretch. My husband was in
debt, and I being anxious to help him,
thought I would sell self-heating fire-tires,
and I am doing splendidly. A cent's worth
of fuel will heat the iron for three hours so
you have a perfectly even heat. You can
sit in half the time and no danger of
scorching the clothes as with the old iron,
and you can get the most beautiful glass.
I sell at nearly every house, as the iron
saves a much less fire than the old ones.
I sell \$1.20 on each iron and have not sold
less than ten any day I work it. My bus-
band is doing well, and I think anyone can make
lots of money anywhere selling iron. J. F.
CASEY & CO., St. Louis, Mo., will start
anyone in the business, as they did me, if
you will address them. Mrs. A. RESZEL.

To My Life's End.

Old age brings many aches and pains
which must be looked after if health is to
be maintained. This depends more than
anything else on the kidneys. "I am
eighty-five years old," writes A. Duffin,
farmer, Autville, Ont., "and have had
kidney trouble five years. My son advised
Clase's Kidney-Liver Pills, and I obtained
immediate relief. I shall use them to my
life's end. You will find these Pills
equally effective for that lame back."

A Hold Up.

Last night at Mr. and Mrs. W. Broley
were returning home from town, they were
"held up" near the eastern reservoir by
two unknown parties. The robbers, how-
ever, were frustrated in their designs by the
arrival of neighbors who were following a
short distance behind. The would-be thieves
escaped.

REMARKABLE CASES

Chronic Invalide Made from Sick
After Giv'g Up Hope.

London, Ont.—Henry E. Nicholls, 176
Rector street, catarrh; recovered. Dr.
Case's catarrh cure. 25c.

Markdale—Geo. Crowe's child, itching
eczema; cured. Case's Ointment.

Trois-Rivières—H. H. Sutherland, travel-
ler. Piles—very bad case; cured: Case's
Ointment. 60c.

Lac du Fort—Wm. Bracken, gardener, pin
worms all gone. Case's Pills.

L'Amable—Peter Van Allen, eczema for
three years. Cured. Case's Ointment.

Gower Point—Roland Bartard, dread-
ful itching piles, 30 years. Well again;
Case's Ointment. 60c.

Meyersburg—Jelous Simmons, itching
piles; cured. Case's Ointment.

Malone—Geo. Richardson, kidney and
liver sufferer; better. One box Case's
Pills. 25c.

Casley—H. W. Hill's son, crippled with
rheumatism and suffering from diabetes,
completely recovered. Case's Pills.

Matchard Township—Peter Taylor, kid-
ney trouble, 30 years, cured. Case's
Pills. 25c.

Toronto—Mrs. Hattie Delaney, 174
Crawford street, subject of perpetual
colds. Cured by Case's Syrup of La-
sena and Turpentine. 25 cents.

Dr. Case's remedies are sold by all
druggists, E. Edmans & Co., man-
ufacturers, Toronto.

A Boy Fatally Hurt

WHILE STEALING A RIDE ON A WATER
TANK.

LETHBRIDGE, Alta., Oct. 27.—Last evening
a young boy, named McLean, while stealing
a ride on the Alberta Railway & Coal com-
pany's road, received what may prove fatal
injuries. The yardmaster had driven away
three youngsters from the cars, one of whom
returned and climbed upon a water tank
which was being taken to No. 3 shaft. On
the way out they ran into an open switch,
containing some cars loaded with rail. A
P. 2000 contact with the latter the boy had
both legs badly broken. He now lies dying
at the Lethbridge hospital.

A Bad Young Man.

A young man giving his name as McGolly,
and several aliases, seized a horse at the
ivery stable on Saturday for the purpose of
driving out to A. J. Parker's, about two
miles from town. Not returning in reason-
able time suspicions were aroused, and on
enquiries being made it was found that he
had driven to Indian Head. Arriving there
he drew a registered letter from the post
office belonging to another young man,
forging his name, and decamped with it and
the rig. The owner of the letter calling at
the post office a short time after was thence-
forth given out. The police were at once
informed of the facts and a search instituted,
and on Sunday night he was located at
Lethbridge where he was arrested and taken to
the Fort for preliminary hearing.

It seems that he and a companion came
up here from the Soo this fall and have
been working for a number of farmers.
His companion had told him he expected a
registered letter from his mother in the
east and had made several inquiries previous
to its arrival. McGolly is evidently a tough
character and his sojourn in jail will be
well merited.

Increase Predicted.

LONDON, Oct. 27.—The evening
Standard, this afternoon, says the
tendency of wheat is towards higher
prices, adding: The failure in India
will divert Californian and Australian
wheat from Europe. Only the
tremendous effort of the United
States to hurry wheat across the
Atlantic in exchange for gold, pre-
vented a much greater increase in
prices, and when this in-rush is
passed there will be a further rise.

Girl Lost.

A daughter of Mr. McKenzie,
near De Clare, was visiting at a
neighbor's Sunday week, and in
the evening the horse which she
rode came home alone. The reins
were tied about the neck of the
animal. Search was made for the
girl, but from latest reports she is
still missing.—Elkhorn Advocate.

An Illicit Still.

Mr. H. Costigan, collector of in-
land revenue, took a trip to Wa-
wanago on Monday, says the Free
Press, and surprised certain parties
who were running an illicit still
there. He seized the still and
caused the arrest of the guilty parties,
who are being tried before magis-
trates at Wawanago now.

Lorlie Lippings.

Constable Budd arrested a young man
here on Sunday who gave his name as C.
Quinn. Several charges are laid against
the prisoner.

Our school teachers have returned from
Wolseley, where they were in attendance
at the teachers' convention.

Invitations are out for a harvest home
dance to be held at the residence of E.
Stock.

A large herd of about 400 head of cattle
were driven through this district on Sat-
urday, 17th inst., on their way to Yorkton.

Commercial travellers from Toronto paid
Mr. Gantelon a visit recently.

A large supply of winter apples have ar-
rived.

Winter is close at hand. Look out for
snow in the near future.

Miss Burton has returned from Moffat.

BUTCHER BOX.

Marry's Girl Quick.

I saw in your paper that a 13-year old boy
made \$1.25 the first hour he worked selling
the Perfection Metal Tip Lampwick. I
ordered a sample and went to work and the
first week I cleared \$10, the second week I
cleared \$15. I expect to run up to \$25 a
week in the near future, as the Perfection
Metal Tip Lampwick makes such a beauti-
ful white light and does away with smoky
chimneys and bad odor and saves oil, it is
easy to sell. If you wish to try it send 13
2-cent stamps to Miss A. M. Fritz, Station
A, St. Louis, Mo., and she will send you
sample outfit. This is a good way to make
money around home. Miss Tina W.

The Hotels.

Leland—J. Ralston, W. K. Ralston, E. M.
Carroll, C. B. Dixon, N. Musgrove, H. Mor-
den, Winnipeg; A. Ross, A. B. McKinley,
G. H. McFarlane, W. K. Boucke, Toronto;
R. McLennan, J. Inzer, Montreal; Mr. and
Mrs. E. Kingston, Ft. Qu'Appelle; W. B. C.
Fasey, Indian Head; R. G. B. West, Banff;
Chas. Fisher, Duck Lake.

Queen's—A. McGibbon, W. Graham, Regi-
na; E. Bradley and wife, Kamloops, B.C.;
A. McQuigg, Brandon; A. Cassell, Maple
Creek; T. J. Wilson, Edgemoor; W. Ander-
son, Winnipeg; J. R. Cote, Saskatoon; Mr.
and Mrs. T. J. Connelly, A. J. Connelly,
Balgownie; W. Davis, Toronto.

WAGHORN'S GUIDE & DIRECTORY TO THE
N.W.T., MAN. & SASK. 50c yly

Qu'Appelle Markets.

GRAIN—Wheat, No. 1, 57c; No. 2, 54c;
No. 3, 50c. Oats, 15c.

Flour—Hungarian, \$2.10; Strong Bakers,
\$1.85; XXX, \$1.35; Rolled oats, \$1.90
Granulated oats, \$2.25; Cornmeal, \$2.75.

Provisions—Eggs, 15c; Butter, 12 1/2
15c. Lard, 12 1/2c. Cheese, 12 1/2c.

CATTLE—Live weight, fine export, 2 1/2c;
butchers, 2 to 2 1/2c; Hogs, 3 1/2 to 4c; Sheep,
3c; Lambs, 3 1/2 to 4c each. Calves, 7c.

MEAT (retail)—Beef, 5 to 10c; pork, 10c;
mutton, 10 to 15c; lamb, 12 1/2 to 15c; veal,
7 to 12c; pork sausage, 10c; Bologna san-
dwiches, 12c; corned beef, 6 to 10c; pickled
pork, 10 to 12c; drained bacon, 10c; break-
fast bacon and hams, 12 1/2 to 15c; spiced roll,
12 1/2c.

FISH—Whitefish, 5c; Finnan Haddie, 15c.
Oysters—\$1.50 per bush.
Potatoes—15c per bush.
Cabbage, 1c per lb. Cauliflower, 30 to 50c
a doz. Celery 75c per doz. bunches.
Hay, \$3 a ton; wood, \$2 to \$2.50 a cord.
Green hides are now being bought.

A Chance to Make Money.

I have made \$1,654 in 87 days
and attended to my household duties be-
sides, and I think this is doing splendid for
a woman inexperienced in business. Any-
one can sell what everyone wants to buy,
and every family wants a Dish Washer. I
don't canvass at all; people come or send
for the washer, and every washer that goes
out sells two or three more, as they do the
work to perfection. You can wash and dry
the dishes in two minutes. I am going to
devote my whole time to this business now
and I am sure that I can clear \$5,000 a year.
My sister and brother have started in the
business and are doing splendid. You can
get complete instructions and hundreds of
testimonials by addressing the Iron City
Dish Washer Co., Station A, Pittsburgh, Pa.,
and if you don't make lots of money it's
your own fault. Mrs. W. H.

Book Notices.

The Longue—This bright magazine is
before us for October, and we are pleased to
see it improve with each issue. Anyone de-
siring of obtaining a high-class magazine
at a low price (50c per year), should sub-
scribe at once for this excellent publication.
A copy may be seen at our office.

Farming, for October, is plumb full of
useful information and articles of interest
to the agriculturist. It contains many
portraits of prize winners at the exhibi-
tions lately held in the east, and cuts of animals
exhibited. This popular magazine is making
great headway, and is an ideal farmer's and
stockbreeder's magazine. \$1 per annum.

THE WESTERN WORLD.

ITEMS SHORT AND INTERESTING.

A Resume of the Events of the Week—
Famous People, Their
Sayings and Doings.

James George Chard, of Ochoe River,
has been appointed a justice of the peace
for the province.

A lad named Edward Matthews, of
Calgary, Alta., was run over by a loaded
coal wagon at Kneehill and badly injured.

While playing in the Central school
grounds at Calgary, a little boy, about
seven years old, named Johnnie Hunter,
fell on a stone and broke his arm at the
elbow. The arm is badly shattered, but
will likely be saved.

The Maple Ridge, B. C., dykes are to
be raised two feet above the high water
mark during the destructive floods of
1904. This has been decided upon by
the Maple Ridge dyking commissioners,
who hope with the assistance of work
practically promised by the government,
to be able to protect their marvellously
rich lands for all time from Fraser river
floods.

Two men named J. McArthur and
Dool, have been drowned in the Colum-
bia river, north of Revelstoke. They
were towing a boat loaded with supplies,
for big head, up the rapids, when the
boat became unmanageable, pulling both
into the river, with above result. J.
McArthur is from New Westminster,
and Dool is from Fort Saskatchewan, the
former being married. The bodies have
not been recovered.

Mrs. Joseph Buchanan, of Bagot,
Man., aged 85 years, while crossing the
train near destination at that place, was
struck by a west bound freight train, and
killed almost on the spot. The train was
stopped as soon as possible, and the in-
jured woman was found, but she was too
badly hurt to be moved, and she passed
away an hour after the accident hap-
pened.

Bogus Canadian half dollars, made in
China, as pure as the originals, and al-
most perfect imitations are in abundant
circulation in Vancouver. The banks
have discovered the fraud, and are warn-
ing the public. About \$2000 worth of
these coins were shipped from China, and
there is no telling how many more are to
come. The Chinese manufacturers will
not doubt send them east and south.
They bear date 1894, are whiter than the
original, and a shade larger and heavier.

His lordship Bishop Dart during a
session of the annual of New Westminster
diocese of the Church of England at
Christ church, Vancouver B. C., in his
pastoral charge referred pointedly to the
importance of securing religious teaching
in the public schools. Since his lord-
ship's inauguration as Bishop of New
Westminster this point has been contin-
ually being brought up, but so far with
no direct result. Another matter dealt
with at length and to which his lordship
has for some time devoted his energies is
ways and means for discouraging tax-
ation in regard to the sacredness of the mar-
riage tie.

ELECTRIC STROKE.

It Affects Workmen as Does Fire or Sun
Heat.

One of the most extraordinary modern
diseases is a peculiar affection, most ac-
tively termed electric stroke, which not infre-
quently befalls workmen employed in
molting metals by means of electricity.
It appears from observations made at the
steel and iron works at Cranston, that
the intense voltage are between the
carbon and the metal to be molten exerts
rays which, even at the distance of ten
meters, produce a painful, hot, prickling
sensation, like that of a burn, on such
unprotected portions of the body as the
throat, face, and more especially the fore-
head.

The skin of the parts affected becomes
either copper colored, or assumes a bronze
hue; the eyes, in spite of thick glasses,
are so intensely dazzled as to be useless
for some minutes after; vertigo, (yel-
low vision) sets in, everything appearing
sulfur colored; the conjunctive are in-
flamed, and there is a gritty feeling, as
of sand under the eyelids. There is fre-
quently great pain, accompanied often
by hypotension, and in some instances,
fever.

After a few days these symptoms sub-
side, and the skin of the affected part
peels and the patient is restored to health.

Now, the remarkable thing about all
this is that very little heat is radiated
from the electric arc used; all the trouble
arises from the light rays, and although
it has not yet been experimentally proved,
there can be little doubt that the blue
and violet, that is, the chemical, rays are
to blame.—Boston Journal.

Fatal Toboggan Slide.

A dispatch from Colorado Springs, Col.,
says: R. C. Marsh, foreman of Pike's
Peak Railway company, died from in-
juries received while coasting down the
peak on a toboggan slide. He started
from the summit shortly after the
passenger train had left, on an arrange-
ment to coast up with a double set of
coasts to obtain hold of the centre rack or
rail of the road, and which is fitted
with a peculiar brake applied from the
sides. The rack rail is covered with
greased oil dripping from the pump-
jack engine, and is exceedingly slippery.
Marsh coasted down the 16 per cent. grade
with a lot of lightning, taking the
curve with a speed that was hair-raising.
He coasted Windy Point and started
down the half-way house, when the
brake broke in an attempt to apply it,
and the toboggan, with nothing to im-
pede it, gained in momentum at a fright-
ful rate. The passenger train that had
left the summit was overhauled. Marsh
crashed into it with terrible force, sus-
taining internal injuries, from which he
died within an hour. He was 33 years
old, single, and came from Darlington,
Mo.

A Mutiny of Prisoners.

The county work-house prisoners of
Tennessee, at work near Saddle, mutinied
the other night and twenty-eight of them
made a rush on the guards, who opened
fire on them with shot guns, wounding
half of the men, all negroes, seriously,
and quelling all but four, who made
their escape. The matter created great
excitement. It is thought that four of
the negroes will die.

SERIOUS LOSS TO CUBANS.

A Spanish Gunboat Captures a Filibuster-
ing Vessel With Large Stores.

The quantity and quality of the con-
tributed of war captured by the Spaniards
from the Danthon expedition is much
larger and more important than at first
suspected. It is now stated that 1,051
rifles, 50 machine-guns, a large number of
medicine chests and medicine bags, a
magnificent saddle of Russian leather,
with silver stirrups; a silver banner,
some important correspondence, a quan-
tity of ammunition, some boxes and
packages marked in a manner showing
that the expedition left Jacksonville on
Sept. 20th, some labels of Florida, and
papers showing that expedition No. 3
had landed forty-three filibusters in the
San Juan, where it is reported that the
twenty Cuban ladies are assisting the
wounded. The flag of the Spanish gun-
boat Artilia, which with the Contrama-
estre, took part in the capture, had
nine bullet holes and there were eleven
shots through the smokestack of that
vessel. The Artilia fired 350 shells and
2,500 rounds of rifle ammunition during
the engagement. The Contramaestre
fired 15 grenades and 1,100 rounds of
rifle ammunition. The capture is said to
be a serious loss to the insurgents. Ad-
miral Garcia Navarra will send the in-
surgent flag captured and the flag of the
gunboat Artilia, together with some of
the insurgent arms, to the queen regent.
The minister of the colonies is to take
into consideration the plan of the board
of trade for issuing another lot of silver
bank bills, which step is considered
necessary in order to maintain their com-
pulsory circulation. This news is looked
upon in certain circles as being likely to
improve the financial situation.

ABE LINCOLN'S HAT.

The Rusty Beaver He Wore When Assas-
sinated is in the Court.

The hat which President Lincoln wore
the night he was assassinated in Ford's
Theatre had been the subject of a contro-
versy in the district courts, which has
ended in a judgment for the custodian of
the museum relic contained in the
house where the martyred president died.
The evidence in the case disclosed three
facts: The hat, now a rusty beaver, was
presented to the Rev. Dr. Paines D.
Curley, then pastor of New York avenue
Presbyterian church, who preached the
sermon at the funeral of Mr. Lincoln.
After Dr. Curley's death the hat was
placed on exhibition by his son in the
Patent Office, from which it disappeared
after some years. It next appeared in the
Smithsonian Museum, without the care-
taking that it was a loan from the Cur-
ley estate. At that time it was seen by
representatives of the Curley estate, but
they made no effort to reclaim it until
some years later, when it had been trans-
ferred to the Lincoln Relic Museum.
Judge Cole held that this delay was fatal
to the Curleys, under the operation of
the statute of limitations; that having
then failed to assert title, they could not
do so now.

DISAPPOINTED AMBITION.

His Luck and Failure to Secure Employ-
ment make Another Suicide.

J. Stevens, Vancouver, B. C., recently
received a wire from his daughter in San
Francisco, which reads: "Dave shot
himself twice in the head to-day and
died an hour afterwards." This wire
coincided with a short paragraph in the San
Francisco Chronicle to the effect that a
clerk named David Stevenson had com-
mitted suicide by shooting himself, in the
sequel to a sad story. David Stevens was
a clever stationer in the Canadian Pacific
railway at Vancouver, B. C., in receipt
of a good salary, by which he supported
his parents. Mr. Stevens thought to
better himself in California and nursing
the delusion that his worth would be as
once recognized by strangers, threw up
his position and left for San Francisco.
Before his departure he was presented
with an address and a valuable present
by a large circle of intimate friends and
left Vancouver full of hope and ambition.
In the strange city he soon realized what
it was to be without friends and influence,
and brooding over his ill-luck and failure
to secure employment, he deliberately
committed suicide rather than return
home and acknowledge himself wrong.

The Famine in India.

The vicerey of India cables to London,
Eng., that over most of Oude, a large
part of the northwest provinces, the Pan-
jab, eight districts of the central prov-
inces and two districts of Upper Burma,
which were not irrigated this autumn,
the crops are in a seriously damaged con-
dition. In addition to the propects of
the crops in part of Bombay cause anxi-
ety. Rain is now improbable and a fa-
mine is inevitable unless sufficient rain
falls in Oude, the northwest provinces
and the Panjab. There is also consid-
erable distress in other affected areas
which are about the same as in 1877.
Merchants are offering American wheat
at nine shillings per bush at Calcutta, equal
to eight shillings at Allahabad. The present
price in pounds per bush in the central
provinces is eight, to ten and eleven;
Panjab, eight to ten and twelve, north-
west provinces and Oude eight and one-
half. The prospects of sea imports are
expected to lower prices.

Explosion of Dynamite.

A few days ago 225 pounds of dynam-
ite, stored in the Dayton Coal & Iron
supply house at Dayton, Tenn., exploded,
blowing the building into splinters. The
explosion wrecked the company's office,
150 feet long and badly damaged the
large company store. Every business
house in the city, including the court
house and school buildings, as well as res-
idences, had their windows shattered.
No one was killed. The explosion was
of incendiary origin. The company's
loss will exceed \$10,000, and other da-
mages in the city are heavy.

A Whole Village Quarantined.

The little village of Slatsburg, two
miles east of Toledo Park, N. J., has
been quarantined on account of an epi-
demic of diphtheria of malignant
form. Seventeen cases and several
deaths have been reported. The
public school has been closed. Dipht-
heria has also broken out in the Italian
quarter of Toledo Park, and a quaran-
tine was placed over that quarter. Seven
police men will be stationed constantly at
the approaches to the Italian town to pre-
vent the approach or escape of anyone.

A VICTIM OF SCIATICA.

UNABLE TO WORK THOUGH STRONG
AND WILLING.

The Suffering of a Well Known Guelph
Citizen—Could not Move About With-
out the Aid of a Stick—Again as Strong
and Healthy as Ever.

From the Guelph Mercury.

There is perhaps no business or occu-
pation that any man could not follow
that is more trying to the health—par-
ticularly in the winter—than that of
moulding. A workman leaves the shop
with his clothing rigging wet from per-
piration, and a cold wind chills him to
the marrow making him a ready mark
for lumbago, sciatica and other troubles.
A moulder requires to be a man of more
than ordinary strength, and to continue
at his work must always be in good
health, for the moulding shop is no place
for an invalid. Sciatica is by no means
an uncommon affliction for men of this
craft, and once the dread disease has
laid a victim helpless he seldom shakes him-
self free from it again. In fact some people
declare that it is incurable, but that it
is not we are able to testify by a personal
interview with one afflicted with the
trouble, but who is now in perfect health
thanks to his timely use of the famous
remedy. There are few workmen better
known in Guelph than Glas W. Waldren,
perhaps better known as "Charley
Waldren," for he has lived in Guelph
almost continuously since he was three
years of age, and he has now passed the
38th mile post. Mr. Waldren is a mould-
er, and has worked at the business for
22 years; and besides, being noted as a
steady workman, he is a man whose ver-
acity is unquestioned. It is a well
known fact here that Mr. Waldren had
to quit work in January, 1896, on account
of a severe attack of sciatica, and for
eleven weeks was unable to do a tap.
Knowing that he was again at work a
Mercury reporter called at his house one
evening to learn the exact facts of the
case. Mr. Waldren, when spoken to on
the subject, replied quite freely and had
no hesitation in crediting Dr. Williams'
Pink Pills with his remarkable recovery.
I am not one of those people who are
seeking newspaper notoriety, said Mr.
Waldren, "neither have I been snatched
from death's door, but from the day
when I quit work, until March 30th,
when I started again, I was confined to
the house with sciatica, it located in my
hip and would shoot down my leg to my
foot and was very painful. I could not
move about the house without the aid of
a cane, and then only with great pain.
I was totally unable to do any work,
I was very nervous, and was never free
from pain, and it made me feel very
much depressed, for beyond that I felt
strong and anxious to be about. I am a
member of three benefit societies, from
which I drew pay, viz: The Three
Links, the Iron Moulders' Association,
and the Raymond Benefit Society.
People came to see me and, of course,
everybody recommended a sure cure. I
didn't try half of them. It was not pos-
sible, but I tried a great many—particu-
larly remedies that I had been in the
habit of using (lumbago)—but I found
no relief. I tried Dr. Williams' Pink
Pills. After trying two boxes I noticed
an improvement, and I kept on using
them. When I used six boxes I was
back at work again. I kept on until I
had finished the sixth box, and I never felt
better in my life.

"Have you noticed any recurrence of
the trouble since?" queried the reporter.
"I have not," he replied, "suffered a
single evening since." Mr. Waldren has
worked since in all the moulding shops of
the city, and was never in his life laid off
as long as he was from the attack of
sciatica. He hardly knew what it was
to be sick, and is of that tough wary na-
ture that he can stand much greater
physical strain than most people would
imagine. Almost anybody in the city
can verify his story. Mr. Waldren said,
as the reporter got up to leave, "I only
hope that some poor fellow who has
suffered as I did may notice my case and
get relief as I did."

Dr. Williams' Pink Pills create new
blood, build up the nerves, and thus
drive disease from the system. In hun-
dreds of cases they have cured after all
other medicines had failed, thus estab-
lishing the claim that they are a marvel
among the triumphs of modern medical
science. The genuine Pink Pills are
sold only in boxes, bearing the full trade
mark, "Dr. Williams' Pink Pills for Pale
People." Protect yourself from imita-
tion by refusing any pill that does not
bear the registered trade mark around
the box.

SERIOUS FIRE IN MONTREAL.

Three Firemen Killed and Many Others
Injured—\$100,000 Damage.

Montreal was visited the other morn-
ing by a fire which was one of the most
destructive that has visited that city in
many years. It began about 1:30 a. m.,
in Gilmour Bros. & Co. place of business
at 31 St. Peter street. Their stock is
composed of chemicals and soap of finer
quality, and is manufactured on the pre-
mises. This material in catching fire,
caused the flames to spread rapidly. The
flames were communicated, one side, to
Keasney Bros. tea warehouse, on the
other to the cigar factory of B. Goldstein
& Co.

At three o'clock one of the roofs fell
in and twelve firemen were buried under
the burning debris. Five men have been
taken out badly injured.

Three of the firemen who were en-
tombled in the burning buildings at the
fire are dead.

The name of one was Edmund La-
porte, he was one of the team that went
to the firemen's convention in London
this summer.

Lake Steamer Burned.

The big steamer Australasia, owned by
James Corrigan, of Sturgeon Bay, Wis.,
was recently burned on Lake Michigan,
and now lies at the bottom of Whitefish
bay. The steamer, which was valued at
\$50,000, and was loaded with a cargo of
2,000 tons of coal for Milwaukee, caught
fire about 11 o'clock at night. The Aus-
tralia was then in sight of the land.
Full steam was put on and an effort made
to reach the vessel, the crew in the mean-
time making a terrible fight against the
flames. At last the vessel was reached
just as the life-saving crew arrived at the
vessel and rescued the officers and men.
The Australasia soon afterwards sank.
The vessel and cargo are counted a total
loss.

AFTER HIM FOR \$20,000.

Mr. Franklyn M. Cowperthwaite Has Ser-
ious Charges Made Against Him.

Mr. Franklyn M. Cowperthwaite, the
former manager of the Canadian Fibre
Chamois Company, Ltd., of Montreal,
was served with writs in two heavy
actions for damages, the amount claimed
being \$10,000 in each case. The plain-
tiffs are the International Fibre Chamois
Company of London, Eng., and the Cana-
dian Fibre Chamois Company of Mont-
real, who are represented by Messrs.
Macmaster and McLennan. The London
company alleges that Mr. Cowperthwaite
signed a contract with it in June last,
binding himself not to directly or in-
directly enter into competition with it
in the English market in the
fibre chamois business; that the de-
fendant has since entered into negotia-
tions with Mr. Charles Riordon, the well
known paper manufacturer of St. Cathar-
ines, Ont., and others, to promote a
rival concern, and has become interested
in the Standard Fibre Lining Company
of St. Catharines, which, it is alleged, are
making underwear, and using the name
chamois and placing it on the English
market in competition with the London
company. It is claimed that Mr. Cow-
perthwaite's connection with Charles
Riordon and the Standard Company is
in violation of his written contract with
the London company. Hence the claim
for damages, and it is stated an injunction
will be applied for. The action by the
Canadian Fibre Chamois Company, of
Montreal also arises out of Mr. Cowperth-
waite's alleged connection with the
Standard Company, of St. Catharines,
and his management of some business
for the plaintiff in London. It is also
alleged that Mr. Cowperthwaite, while
the manager and director of the Cana-
dian company, entered into arrange-
ments with Mr. Riordon for the purpose
of starting a rival factory, and used
knowledge and information which he
acquired from the position as director in
the Montreal company, to promote the
success of the Standard Fibre Lining
Company. It is alleged that his duties
and responsibilities as a director are in-
consistent with his alleged connection
with the Standard Company, and that he
is liable in damages for any injury which
the Montreal company may have sus-
tained from such connection. The case
promises to be interesting, as it involves
an important question as to the respon-
sibilities of directors of companies.

PRISON DEBT AND REFORM.

How They Reach Convicts Minds by Way
of the Stomach.

A queer food experiment is being tried
at the Elmira reformatory, in New York
state. All civilized nations hold some
inducement to the criminal in confine-
ment, to sooner secure his release from
legal restraint. A certain amount of
time is always taken off for good behav-
ior. The criminal has often been ex-
horted by father, mother, brother, sister
and by others who had his interest at
heart. His manhood, his future, his
ambition and his hope of quick release
from confinement have been appealed to,
and in many cases in vain. Now it is to
be the man's stomach that the appeal is to
be made.

The proposed experiment contemplates
a somewhat enlarged scale of dietary
privileges, increasing from grade to grade,
from lowest to highest, so that with in-
dus and proper limits of indulgence the
appetite for prisoners in a prison reformatory
for crime, they can out of their
own accumulations, have the privilege to
select meal by meal at their pleasure,
provided always that they keep their ex-
penditure within the limits of indige-
nence allowed by the government of the
reformatory. The prisoners, under the
new system of the reformatory as it is
at present, must learn their living
and keep a credit balance to their account,
respectively, in order to progress toward
the release by parole. A prisoner to
maintain a credit balance must, of course,
restrain, regulate and exert himself in a
manner which accomplishes and shows
his improvement, but hitherto the diet
rate has been inflexible.

It is believed that if more latitude is
allowed and the prisoner has a chance of
tickling his palate occasionally with
mince pie, juicy roast or other home-
like dainties he will be more likely to
make an effort to reform.—Philadelphia
Press.

BETTER MAIL SERVICE.

The Rainy River District to be Greatly Im-
proved in this Direction.

The increasing population in the min-
ing towns in the Rainy River country
and the consequent necessity for better
mail service, have been brought to the
attention of the post office authorities at
Ottawa, and as a result it is expected that
a semi-weekly mail to these points will
be inaugurated very shortly. The point
at which mails will be left and picked up
is Wabigoon station, the Hudson Bay
post on the C. P. R., east of Portage.
From Wabigoon a chain of streams and
lakes provides a water route to the gold
mining districts. There are three por-
tages to be made. Two of them are so
short that they offer but little incon-
venience to travellers, but the third is too
long to allow of a quick transfer of
goods. The Ontario government is be-
ing petitioned to overcome this difficulty
by constructing a dam at the north end
of Mud Lake. This would raise the
water to the level of Summit Lake, and
the boats could then proceed over what
is dry land. The nature of the ground
would permit of the work being done
at the cost of only a few hundred dollars.
If the mail route from Wabigoon mission
south is established, the mails would be
carried by water in summer and by stage
in winter. The country thus served is
now a regular net work of mining loca-
tions.

\$60,000 in the Trunk.

When George Craft, a follower of the
race track, left the Saratoga Hotel,
Chicago, two or three years ago, he left
his trunk in lieu of \$30.40 board bill. He
never came back and the other day the
trunk was opened to see if there was
anything of value in it. Apparently at
first there was nothing much, and Man-
ager Sebree left what there was for the
waiters to divide amongst them. Charles
G. Brown, of 175 Halsted street was one
of these men, and while rummaging
through some old papers at the bottom
of the trunk he found \$60,000 in railroad
securities, which seem to belong to one
J. L. Schoolcraft. The papers were tri-
ed over to the police, who think that
it is the name of the man who left the trunk
and that he has been made away with.

EXCITEMENT IN HAVANA.

REFUSAL TO SURRENDER A POLITICAL
REFUGEE THE CAUSE.

Spanish Officers Board an American Vessel
to Make an Arrest But Are Roughly
Ordered Off by the Captain—General
Weyler Threatened to Sink the Ship.

A dispatch to the New Orleans Times
from Key West, Fla., says: "If the
Spanish authorities had taken Senor
Angel Fernandez off the Ward line
steamer Vigilancia, while that vessel
was in Havana Harbor, the United States
warships would immediately have been
ordered to Havana to enforce a demand
for reparation, and war between this
country and Spain would undoubtedly
have resulted. For three hours the
United States and Spain were on the
brink of war and the threatening situa-
tion was only relieved when the Spanish
authorities ignominiously backed down,
and allowed the Vigilancia to proceed to
sea with Fernandez on board. A letter
received from a correspondent in Havana,
who is close to Consul-General Lee, gives
a dramatic account of the episode.

According to the letter, when the Vig-
ilancia put into Havana the Spanish
authorities demanded the surrender of
Senor Angel Fernandez, a Mexican, on
board the vessel. The Spaniards alleged
Fernandez was not a Mexican, but a
subject of Spain. Captain John McIntosh,
of the Vigilancia, refused to surrender
Fernandez. Then the Spanish authori-
ties told McIntosh that if the Vigilancia
attempted to go to sea with Fernandez
on board it would be sunk by the guns
of Morro Castle. Capt. McIntosh imme-
diately laid the matter before Consul-
General Lee, who complimented the captain
on his bravery, and told him to take the
Vigilancia to sea when he pleased.
Consul-General Lee was greatly enraged
at the threat to sink the Vigilancia, and
he is reported to have said to Capt. Mc-
Intosh, "If the guns of Morro Castle sink
your ship, American warships will be
bombarding Havana within a week." Capt.
McIntosh returned to the Vigilancia and
Consul Lee informed Capt. General
Weyler the vessel was going to sea, and
if any attempt were made to take off
Fernandez, or if the vessel was fired on,
Spain must take the consequences. Weyler
immediately summoned the cabinet
council, and while in council considering
the matter, the Vigilancia began to weigh
anchor. The Spanish officials on board
protested, but Capt. McIntosh said:
"My ship has been cleared. My consul
told me to go to sea. I am going to sea,
and dare you to try to prevent me. Get
off my ship." With that he roughly
shoved the Spaniards into the waiting
boats, and the Vigilancia flying the stars
and stripes, started for the mouth of the
harbor. The harbor was commanded by
the guns of Morro Castle. All was ex-
citement in Havana, and the quay
and house-tops were lined with hundreds
of persons who expected the Vigilancia
to be fired upon. Consul General Lee
himself watched the Vigilancia through a
glass. Meanwhile signals were being
exchanged between Gen. Weyler's palace
and Morro Castle, and in the latter place
were signs of great excitement. Slowly
the Vigilancia entered the mouth of the
harbor, and then it was noticed the guns
of Morro Castle were turned on the ship.
The Vigilancia repeatedly signalled Mor-
ro Castle: I am going to sea. But no
answer came from the fort until the vessel
was in the blue water, and then the
Spaniards ran up the signal, which
means: "Good bye." It is said General
Weyler was furious over the departure
of the vessel and Gen. Lee's course. It
is stated Gen. Weyler ordered the com-
mander of Morro Castle to sink the Vig-
ilancia, but at the last moment yielded
to the entreaties of his cabinet and
commanded the order. The episode
caused more excitement in Havana than
anything since the beginning of the war.

Peculiar Mishap on a Railway.

A very peculiar mishap to a freight
train has just come to the attention of
the motive power department of the
Panhandle in this city, and in its de-
tails it assumes the nature of a miracle
as strange as those of old. The train was
running at a rapid rate between Xenia
and Trebans, a distance of four miles,
when the trucks of one of the cars gave
way and jumped onto the tracks of the
Cincinnati, Hamilton & Dayton road,
which run parallel with the Pennsylv-
ania at that point. The trucks lighted
squarely on the rails and continued run-
ning until they smashed into the pilot of
a Cincinnati, Hamilton & Dayton engine
running in the opposite direction. The
Panhandle train evidently did not suffer
any inconvenience owing to the loss of
the trucks, as it was not discovered until
Trebans was reached, and then it was
found that the body of the freight car
was held in position by the couplings and
had run two miles without any wheels.
The accident is perhaps without any
parallel in annals of railways, and though
absolutely true and vouched for by the
motive power department officials, it
seems stranger than fiction.—Columbia
(O.) Press.

A UNIT ON THE ISSUE.

The Province of British Columbia Takes
Action Against the Charter Mongers.

The city council of Vancouver and
board of trade are conjointly taking
action to protect the interests of the
coast and the general public of British
Columbia in connection with the pro-
posals now being made in regard to the
construction of a direct line of railroad
between the coast and Rossland and
Nelson, having connections also with
East Kootenay's gold and silver country,
through the Crow's Nest Pass. The
public authorities concerned will urge on
the Dominion and the provincial govern-
ments the need of withholding grants of
railway rights from mere char-
ter-mongering syndicates, and the need
of at the same time securing equitable
freight and passenger rates, as conditions
precedent to subsidy grants. The city
councils of Victoria and New Westmin-
ster are working on similar lines and the
province may in fact be said to be a
unit on the issue.

A Grand Defensive League.

Lord Brassey, the governor of Victo-
ria, in a recent speech on imperial fed-
eration, said: "It could be wise, if pos-
sible to bring America into a grand de-
fensive league of the Anglo-Saxon race,
which would effectively secure the peace
of the world."

CUBAN AFFAIRS.

A Dynamite Conspiracy—Insurgents De-
feated in a Battle.

The police of Havana have arrested two
white men and a mulatto, said to be de-
liverates from the insurgent Junta in
New York. They are also charged with
conspiring to blow up buildings by the
use of dynamite in order to afford an op-
portunity to create a panic and plunder
the city. One of their accomplices is said
to be implicated in the explosion of the
governor-general's palace in April last,
but there are said to be thirty-two men
engaged in the plot, some of them being
in foreign countries and others already
in the African prisons of Spain.

In an engagement which has just taken
place between the Spanish troops under
General Aquilera and the insurgents
under Delgado, the latter lost over 100
men killed, among them being Dr. Luis
Delgado. The report that Benito, the
insurgent governor, has been killed in a
skirmish at Paria, province of Santa
Clara is confirmed.

Good Ad. for the Safe Maker.

The officials of the bank of Ecuador,
have now succeeded in opening for the
first time since the great fire, the vaults
of that institution. To their great sur-
prise, they found that the paper money,
documents and books to be in perfect
condition. This will tend to restore con-
fidence, and will lead to an earlier re-
sumption of business than at first anti-
cipated.

Qu Appelle Observatory.
Reading of the thermometer for the week ending Tuesday, Oct. 27, 1896.

	Maximum.	Minimum.
Wednesday, Oct. 21	40	19
Thursday, Oct. 22	41	9
Friday, Oct. 23	44	17
Saturday, Oct. 24	55	22
Sunday, Oct. 25	53	35
Monday, Oct. 26	50	27
Tuesday, Oct. 27	37	28

WIND DIRECTION AND VELOCITY.

	6 A.M.	1 P.M.	6 P.M.
Wednesday	NE 2	NE 2	SW 5
Thursday	W 6	SW 20	SW 8
Friday	W 1	W 4	E 1
Saturday	SE 18	SW 14	W 6
Sunday	SE 2	SW 1	SW 6
Monday	SE 2	SW 3	SE 2
Tuesday	NE 8	NE 2	NE 6

"My Dad's the Engineer."

The Latest Song—Have You Heard It?
The very latest popular song is "My Dad's the Engineer," and a copy (with words and music, full sheet music size) worth 50c, will be forwarded to any of our readers who will mention this paper, and send 5c in stamps to Edmonson, Bates & Co., Toronto. This firm, who have had such great success with Dr. Chase's Kidney-Liver Pills, Gouticure, Catarrh Cure and Liniment and Turpentine, also Scott's Sassafras, have just printed over half a million large, six-page papers, containing interesting stories, reading matter and good music. The popular song, "You Can't Play in Our Yard," is printed with words and music in full. A free copy of this valuable paper will be sent to anyone sending for "My Dad's the Engineer."

Did You Ever Make Money Easy?

Mr. Editor—I have read how Mr. C. E. B. made so much money in the Dish Washer business and think I have beat him. I am very young yet and have had little experience in selling goods, but have made over \$80 in ten weeks selling Dish Washers. It is simply wonderful how easy it is to sell them. All you have to do is to show the ladies how they work and they cannot help but buy one. For the benefit of others I will state that I got my start from the Monard City Dish Washer Co., St. Louis, Mo. Write to them and they will send you full particulars.

I think I can clear \$3,000 the coming year, and I am not going to let the opportunity pass. Try it and publish your success for the benefit of others. J. F. C.

Local and General

—Mr. Cecil Bell returned to Regina Sunday morning.

—Is it not about time for the curling club to wake up?

—The lawn tennis club expect to give a dance here shortly.

—Miss Fanny Gibson left on Tuesday evening for Winnipeg.

—Mr. J. Inzer, optician, Montreal, is registered at the Leland.

—Miss King is visiting her sister, Mrs. (Rev.) J. P. Sargent.

—Mrs. Mabel Pinder left Tuesday morning for Arco, Lase, B.C.

—The V. M. S. is the highest grade and most reliable of Chin-wag Balm made.

—The council have decided to allow the herd to go out of force on Nov. 2 next at Nov. 15.

—Mr. R. Wilson, representing Love, McAlister & Co., wholesale stationers, Winnipeg, spent a day in town this week.

—Quarterly communion services will be held in the Methodist church, Qu'Appelle, and at Egeley on Sunday, Nov. 1.

—"Don't be deceived." Insist on getting the genuine OXKA Smoking mixture; too a package of 4 pounds.

—Mr. Dismage, of the Vulcan Iron works, Winnipeg, having completed the placing of the new boiler and engine in the elevator, returned to Winnipeg Sunday evening.

—Mr. Wm. Smith, advocate, and family, have moved to Indian Head. We are sorry to lose Mr. Smith from our town and hope to hear of his success in his new field.

—Mr. and Mrs. Rowe Harvey entertained a number of friends at their residence, Leighton Grange, on Tuesday evening. The party broke up at an early hour after thoroughly enjoying themselves.

—On Saturday morning while a freight loaded with live stock was coming east, a wheel came off one of the trucks causing three cars to leave the track and blocking the road for several hours.

—The local board of missions of the Manitoba and Northwest conference of the Methodist church meets in Portage la Prairie today, at which the grants will be made to the various missions for the current year.

—Two more burglaries were reported Tuesday morning in Winnipeg, the stores of Mr. Baskerville, hardware merchant, and R. McKichan, dry goods, being entered and goods and money stolen.

—"A Swindle" is the name that appears over the office door of a struggling lawyer in the city of Stratford, Ont. A friend of the unfortunate gentleman suggested the advisability of writing out his first name in full, thinking that Arthur or Andrew Swindle, as the case might be, would sound better than the rather significant "A."

Swindle. And when the lawyer

Kind Words From the Fred Victor Mission Bible Class

On behalf of the Fred Victor Mission Bible Class I wish to express our gratitude to you for the box of Chase's Outrigger which you supplied in aid of our charitable work to the infant child of Mrs. Browning, 162 River street. Ten days ago the child was awfully afflicted with scald head, the face being literally one scab from forehead to chin, and in that brief time a complete cure has been effected. Surely your gift was worth more than its weight in gold.

EDMUND YEIGH,
264 Sherbourne St., Toronto.

A Good Windmill—make it Yourself

I built one of the People's wind mills which I saw recommended in your paper recently, it only cost me \$9.40 and is a splendid mill; my well is deep, but it pumps it all right with very little wind; the neighbors all like it, and as I am a kind of a carpenter I have agreed to put up nine mills already, on which I can make a nice profit, and there are many others for whom I can put up mill this fall. I don't see why every farmer should not have a wind mill, when they can make it themselves for less than \$10; any one can get diagrams and complete directions for making the wind mill by sending 18 two-cent stamps to pay postage, etc., to Francis Casey, St. Louis, Mo., and there can be dozens of them put up in any locality by anyone that has energy to do so.

A FARMER.

with tears in his eyes, whispered to him that his name was Adam, the friend understood and was silent.

—Our photographer, Mr. F. Clifford, has removed his studio to the building next to Mr. McGurk's harness shop.

—Apples are quoted at \$2.50 to \$2.75 at Vineland and other Manitoba points. They are quoted at \$2.50 to \$3 in Winnipeg. Somebody must be getting preferential rates or losing money as apples cannot be sold here less than \$3.50 to \$3.75.

—At the Banquet tendered Hon. J. I. Tarte, minister of public works, on Monday evening, both he and his colleague, Mr. Bourassa, M.P., evinced great interest in the west, and if promises go for anything the hearts of Winnipeggers will be made glad by his promised attention to St. Andrew's rapids.

—A memorial for presentation at Ottawa was before the Northwest assembly this week to urge the Dominion Government to grant amendments to the Territorial Act and make increase in subsidy. A resolution was also adopted urging the necessity for immediate construction of a railway to West Kootenay from the Territories.

—We are sorry to have to announce the severe loss that Mr. Geo. Lang sustained to-day by the loss of his crop. It appears that they were threshing at his house when a spark from the engine set fire to a stack, and as a result, his whole crop was burned. The loss was great, but the threshing syndicate have generously offered to help Mr. Lang bear his loss.—Prairie Witness

—Mr. E. Canniff has returned from Regina, where he exhibited his fire guard machine before the members of the assembly. The special committee will send out their report in a few days, and will state that with increased speed on the fans the machine will be a complete success.

—The new twin-screw steamship, Canada, of the Dominion line, 9,000 tons, has proved itself to be the fastest that ever left the St. Lawrence. She left Quebec last Sunday afternoon and arrived in Liverpool at 2 o'clock the following Saturday morning, making the trip in less than six days, which is the fastest time on record between these two ports.

—Last Friday evening Miss Edith J. Miller, of Portage la Prairie, assisted by Miss Robertson, accompanist, and Miss Paisley, of Brandon, elocutionist, gave a musical and elocutionary entertainment at Indian Head. Had the concert been properly advertised here we have no doubt that a great many people would have taken advantage of the opportunity to hear this beautiful singer and her exceedingly clever companions. As it was only one or two of our citizens

The New Hook Spoon Free to All.

I read in the Christian Standard that Miss A. M. Fritz, Station A., St. Louis, Mo., would give an elegant plated hook spoon to anyone sending her ten 2-cent stamps. I sent for one and found it so useful that I showed it to my friends, and made \$13.00 in two hours, taking orders for the spoon. The hook spoon is a household necessity. It cannot slip into the dish or cooking vessel, being held in the place by a hook on the back. The spoon is something that housekeepers have needed ever since spoons were first invented. Anyone can get a sample spoon by sending ten 2-cent stamps to Miss Fritz. This is a splendid way to make money around home.

Very truly, JENNETTE S.

heard of the concert in time to take it in. They also appeared in Regina on Tuesday evening and gave a first class concert to a thoroughly appreciative audience.

—Mr. T. Hilliard of Balgonie, made us a pleasant call on Saturday. He says that wheat is pouring into the village and business lively.

—One hundred and fifty-four Chinamen passed through from the west on Saturday. Their destinations were 74 for New York, 61 for Boston, 12 for Meville, and the others for different points in the United States.

—Mr. W. C. Searle, who has been visiting for some time at the Head, the guest of R. Lee, has returned to his home in Clinton, Ont.

Mr. Searle has made many friends during his stay with us, and we have no doubt the hospitality of our people helped him to enjoy his visit. Mr. and Mrs. Lee have given to him what will contribute to his future happiness—a wife. Of course Mr. Searle took his wife with him, and their friends here will be glad to hear of their continued happiness and prosperity. We are sorry to lose Miss Lee, but we have sometimes to give up our own pleasure that another may be pleased.—Prairie Witness.

—News has reached us of the death of Rev. Arthur Wodehouse Marling, B.A., of the American Presbyterian mission at Jal Angom, West Africa, in the 42nd year of his age. It is only a few months since the mother of the deceased died at their home in Toronto; about a year ago his only brother, Herbert, passed away. Mr. Marling has been on the African mission field about twenty years, was a young man of fine attainments, a gold medalist of Toronto university, and was much respected by all who had the pleasure of his acquaintance. He leaves a widow and one child. Mr. Marling was a first cousin of Mr. Scott, of The Progress.

The following paragraph, from the Chicago Record, expresses a truth that is also applicable to the farm: "No nation, no community, no municipality can achieve enduring greatness and prosperity through one-sided development. The nation or the city that can boast of progress in one line only is yet far from the goal for which it should be striving." The farmer's limits his experience to the raising of grain is not building on a solid foundation. He needs to develop other resources of the soil, introduce stock and encourage the dairy industry, thus broadening his relation with commerce and gaining a wider field in which to exercise a strong and healthy influence.

AN OPEN SECRET.

It is for women to know that for all their ailments and disorders **INDIAN WOMAN'S BALM** is pre-eminently the remedy. Tired women, weak women, sick women—it cures them all. Never known to fail. Price \$1.00.

In the Supreme Court of the Northwest Territories, Western Assiniboia Judicial District.

In the matter of the estate of James Smith, late of the town of Qu'Appelle, in the said district, rancher, deceased.

UPON the APPLICATION of the Administrators of said estate by their agent, and upon reading the affidavit of Richard Johnston, this day filed:

I do order that creditors and other persons having claims against the said estate, do send in such claims to the said administrators by mailing or otherwise delivering the same to A. D. Dickson, advocate for and administrators, at Qu'Appelle aforesaid, before the 1st day of November, 1896, and I do that notice of this order be published in the Progress newspaper, published at Qu'Appelle, aforesaid, and in one of the newspapers published at Calgary, in said Territory, in all issues of said newspapers intervening between the 3rd day of August, 1896, and the 1st day of November, 1896.

(Sd.) RICHARD JOHNSTON, Judge Supreme Court, N.W.T.
Date: 1st Chamber, Regina, 30th July, A.D. 1896.
